

# GROUP 5 TRIP REPORT

We as group five on 14<sup>th</sup> October requested a permission to go on field trip to gather some information about a project we was working on. In that trip we went to Rwanda Energy Group(REG) Kicukiro branch and we met the manager of the branch. We asked him about some questions and hopefully we got the answers we was looking for.

We thank the administration of IDA technology for trusting us and granting us that chance, it was a great experience.
